

Aquaculture Gap Year Internship Application

The Aquaculture Internship is an intense, challenging, and dynamic educational work opportunity. This is a demanding internship with great rewards for professional, personal, and educational growth.

This application is designed to help you identify your reasons for pursuing this opportunity and help us get to know you better.

Part A: Please submit a cover letter, resume, and at least one work and personal reference.

Part B: Please answer the following questions:

1. What has been your greatest accomplishment in the last year?
2. Please write 4 paragraphs, with citations if relevant, on the environmental problems associated with marine aquaculture, and how current research is trying to solve these problems.
3. What positive impact do you envision having at the Cape Eleuthera Institute? Where do you think this experience will take you?

***Only complete applications received by the April 1, 2008 will be considered.*
